About VSSC & Thiruvananthapuram

Vikram Sarabhai Space Centre (VSSC) is the lead Centre of the Indian Space Research Organisation (ISRO) under the Department of Space (DOS), Government of India. The Centre is named in fond memory of Dr. Vikram A Sarabhai, the great visionary, and the father of the Indian Space Programme. VSSC pioneers in rocket research and launch vehicle projects of ISRO. The Centre also pursues research and development activities in associated areas like propellants, solid propulsion technology, aerodynamics, aero structural and aero thermal fields, avionics, polymers and composites, guidance, control & simulation, computer and information, mechanical engineering, aerospace mechanisms, vehicle integration and testing, space ordnance, chemicals and materials.

Thiruvananthapuram, the capital city of Kerala, takes its name from the presiding deity of Sree Padmanabha Swamy Temple. The history of this Temple dates to the 8th century and is one of the 108 sacred Vishnu temples of Divya Desam in India. Thiruvananthapuram is located on the West Coast of India near the extreme south of the mainland. Referred to by Mahatma Gandhi as the "Evergreen city of India," the city is characterized by its undulating terrain of low coastal Hills and busy commercial alleys. It is also considered as one of the 10 greenest cities in India. The tourist attractions in the city include beaches, backwaters, museums, and zoos.

The temperature in the city during July will be 23 °C to 30 °C.

ISAMPE COLLOQUIUM & EXHIBITION ON COMPOSITES

Theme - Emerging Horizon in Composites for
New Indian Space Ecosystem

August 11, 2023

Venue: Vikram Sarabhai Space Centre
Thiruvananthapuram

In association with

Vikram Sarabhai Space Centre (VSSC)

Organized by

Indian Society for Advancement of
Materials and Process Engineering (ISAMPE)
Thiruvananthapuram Chapter

ICEC 2023

Composites have played a pivotal role in the past and are evolving for the next generation of technologically challenging Space Missions. India's entry into the Human Space Program together with the recently announced space sector reforms have opened new vistas for cooperation and participation from Industries, Academia, and other Technological Institutions in space activities. To give an impetus to this, Indian Society for Advancement of Materials and Process Engineering (ISAMPE), Thiruvananthapuram Chapter is organizing a one-day colloquium in association with VSSC. The Colloquium will have keynote addresses from eminent Dignitaries from the space domain, followed by Invited Talks from the Composite industry experts, and concluding with a panel discussion.

The colloquium provides an opportunity for Composite product suppliers to showcase their products by means of sponsorship, advertisement, and exhibition to the focused audience comprising Engineers, Scientists, and Academia. With the increasing demand for composite products, this exhibition will serve as a common platform for the exchange of ideas between the exhibitors and participants.

About ISAMPE

Indian Society for Advancement of Materials and Process Engineering (ISAMPE), founded in September 1985, is a Professional Society dedicated to the promotion of materials and process technologies in the country, with special emphasis on composites. It aims at establishing a scientific and organized approach to advancements and applications in its field through conferences, workshops, research, compilation, and dissemination of information as well as training and interaction among professionals from a wide spectrum of disciplines.

ISAMPE Thiruvananthapuram Chapter

ISAMPE Thiruvananthapuram Chapter was founded in 1995 and caters to the area of materials development especially composites, in and around Kerala. During the past three decades, ISAMPE has conducted conferences, seminars, workshops, and technical talks.
